Education

K J Somaiya School of Engineering, Mumbai *2023 – 2027*
B.Tech, Artificial Intelligence & Data Science CGPA: 9.91 / 10.0

- Semester GPA: (Sem 1–6) 9.53, 9.91, 10, 10, 10, 10 ; Honors (Applied Cybersecurity) (Sem 3–6) GPA: 10, 10, 10, 10
- Coursework: Data Structures & Algorithms, Machine Learning, Deep Learning, Text Analytics, Big Data Analytics, Soft Computing, Data Warehousing & Mining, Databases
- Practical application of Generative AI, LLMs, RAG, AI Agents and Vector DBs across internships at KPMG, BootLabs and QualityKiosk

PACE Junior Science College, Mumbai *2021 – 2023*
Higher Secondary (HSC) 76.33% | JEE Mains: 90.29 %ile

The Universal School, Ghatkopar, Mumbai *2011 – 2021*
IGCSE, University of Cambridge 91.28%

Technical Experience

AI Engineering Intern (Academic Trainee), *KPMG India, Digital Next*, Mumbai Jun 2026 – Oct 2026

- Built **AutoPlan**, an autonomous SDLC platform on ServiceNow (Python pipeline + REST APIs) that turns plain-English ideas into user stories, release plans, test cases and change requests
- Designed a dual-LLM generator–reviewer architecture, with an independent model scoring artefacts to gate quality automatically
- Built a configurable human-in-the-loop framework and integrated it into production workflows

AI Engineering Intern, *BootLabs Technologies Pvt. Ltd.*, Kurla, Mumbai Nov 2025 – Jan 2026

- Architected a multi-source, citation-grounded RAG pipeline with multimodal input, using embedding models and vector databases
- Built and deployed an automated resume ingestion and analysis pipeline, from preprocessing to model-based candidate evaluation
- Built backend services with FastAPI, Tortoise ORM and LangChain

AI Engineering Intern (Consultant), *QualityKiosk Technologies India Pvt. Ltd.*, Mumbai Dec 2024 – Jan 2025

- Developed an enterprise AI code generator and evaluator using LLMs and RAG, automating code quality assessment to cut manual review effort, and integrated it into existing engineering workflows

Projects

Mann-ki-Baat Analytics & Stock Prediction, *Research Project*, Python, NLP, SQL, Time Series Jan 2026 – Ongoing

- Cleaned PM speech transcripts and market data; ran topic modeling (BERT, LDA), EDA and hypothesis tests to correlate policy announcements with sectoral stock movements

Mental Health Support Platform, *Smart India Hackathon*, Flask, GenAI Sept 2025

- Built and evaluated an ML sentiment analysis pipeline with a Flask front end for personalized wellness interventions, applying privacy-preserving ML for student stress detection

DevRev Code Quality Evaluator, Python, LangChain, RAG, APIs Dec 2024

- Built an API-integrated AI code evaluator enforcing coding standards via GPT-4 and custom prompt engineering, surfacing issues and fixes at review time

Intelligent Campus Assistant Chatbot, *Smart India Hackathon*, NLP, Python Sept 2024

- Built a transformer-based assistant for real-time campus query resolution; advanced to the national round

Additional Experience

- **French Content Development Intern**, *Learn French Enligne*, Remote Jan 2025 – Apr 2025
  200-hour internship: built CEFR-aligned content, worksheets and articles; conducted A1 sessions; coached students for TEF, TCF and DELF
- **Freelance French Tutor**, *Independent*, Mumbai / Remote 2026 – Present
  Tutoring Grade 10 IB MYP students in French across all four language-acquisition criteria
- **French Language Trainer & Curriculum Developer**, *L'Avenir Language Alliance*, Remote 2021 – 2023
  Designed and delivered a French curriculum for young learners (ages 4–14) with digital resources and assessments
- **Administrative Intern**, *Somaiya Sports Academy*, Mumbai Aug 2023 – Oct 2023
  164-hour Earn & Learn internship supporting sports administration operations

Technical Skills

- **Languages:** Python, JavaScript, C++, SQL
- **GenAI & LLMs:** Generative AI, LLMs (GPT-4, BERT), RAG, AI Agents, Agentic AI Frameworks, Knowledge Graphs, Vector Databases, Embeddings, Prompt Engineering, LangChain, Hugging Face
- **ML & Data:** scikit-learn, PyTorch, TensorFlow, Pandas, NumPy, exploratory data analysis, model building & evaluation, data pipelines
- **Web & APIs:** REST API design/integration, FastAPI, Flask, Tortoise ORM, ServiceNow workflow automation
- **Cloud & DevOps:** Cloud Computing, AWS, Azure, Google Cloud, OpenStack, Docker, Kubernetes, CI/CD (GitHub Actions)
- **Data & Visualization:** SQL, MongoDB/NoSQL, Matplotlib, Seaborn, Tableau
- **AI Governance:** AI Governance, Ethics in AI, Responsible AI
- **Tools:** GitHub, Antigravity, Claude Code
- **Design:** UX design, wireframing & prototyping, information architecture, graphic design

Leadership & Achievements

- **Smart India Hackathon** – National Finalist (2024, 2025)
- **MUN Chairperson (2021)** – Led a UNICEF committee on Educational Rights
- **MUN Delegate (2020)** – Represented the Netherlands on Counter-Terrorism

Certifications

- **Introduction to Model Context Protocol** – Anthropic *Oct 2026*
- **Claude 101** – Anthropic *Oct 2026*
- **Google Cloud Fundamentals: Core Infrastructure** – Google Cloud (Coursera) *Sep 2026*
- **GitHub Actions Masterclass: From Beginner to Advanced** – Packt (Coursera) *Sep 2026*
- **Introduction to FastAPI and Backend Development Fundamentals** – Packt (Coursera) *Sep 2026*
- **Introduction to Negotiation** – Yale University (Coursera) *May 2026*
- **Leadership in 21st Century Organizations** – Copenhagen Business School (Coursera) *May 2026*
- **Inspiring Leadership through Emotional Intelligence** – Case Western Reserve University (Coursera) *Apr 2026*
- **Fundamentals of Graphic Design** – CalArts (Coursera) *Oct 2025*
- **Web Design: Strategy and Information Architecture** – CalArts (Coursera) *Oct 2025*
- **Web Design: Wireframes to Prototypes** – CalArts (Coursera) *Oct 2025*
- **UX Design Fundamentals** – CalArts (Coursera) *Oct 2025*
- **Modern Art & Ideas** – The Museum of Modern Art (Coursera) *Sep 2025*
- **DELF B1 (French)** – France Education International *Jul 2024*

Languages

- English (Fluent), Hindi (Fluent), French (DELF B1)
