TECHNICAL EXPERIENCE

AI Engineering Intern

KPMG India

June 2026 – August 2026 Mumbai

- Built **AutoPlan**, an industry-grade autonomous SDLC platform on ServiceNow taking a plain-English idea through to generated user stories, release plans, test cases and change requests
- Designed a dual-LLM generator-reviewer architecture, with an independent model scoring generated artefacts to gate quality automatically
- Engineered a configurable human-in-the-loop framework, allowing the same pipeline to run fully supervised or fully autonomous

AI Engineering Intern

Bootlabs Technologies Pvt. Ltd.

December 2025 Mumbai

- Architected a multi-source, citation-grounded RAG system with multimodal input support
- Built and deployed a resume ingestion and analysis pipeline for automated candidate evaluation

AI Engineering Intern

QualityKiosk Technologies India Pvt. Ltd.

Summer 2024 Mumbai

- Developed an enterprise AI code generator and evaluator built on LLMs and a RAG architecture
- Automated code quality assessment to reduce manual review effort, and integrated the tool into existing engineering workflows

Administrative Intern

Somaiya Sports Academy

2023 Mumbai

- Streamlined operational processes and grew social media engagement
- Coordinated events and stakeholder communications for 500+ participants

PROJECTS

Mann-ki-Baat Analytics & Stock Prediction

NLP, Time Series | Research Project

January 2026 – Ongoing

- Topic modeling and sentiment analysis on PM speeches using BERT and LDA
- Correlating policy announcements with market movements to forecast sectoral stock trends

EDUCATION

B.Tech in Artificial Intelligence & Data Science

K J Somaiya School of Engineering

2023 – 2027 Mumbai

- CGPA: 9.76/10.0 | Honors in Applied Cybersecurity
- Coursework: Machine Learning, Deep Learning, NLP, Computer Vision, Data Structures & Algorithms

Junior College (HSC)

PACE Junior Science College

2021 – 2023 Mumbai

76.33% | JEE Mains: 90.29%ile

TECHNICAL SKILLS

Programming

Python JavaScript C++ SQL

GenAI & Agentic Systems

LLMs RAG Agentic AI
Multi-Agent Pipelines
LLM-as-a-Judge
Prompt Engineering
Human-in-the-Loop Vector DBs
BERT GPT

ML Frameworks

PyTorch TensorFlow
scikit-learn Hugging Face
LangChain

Platforms & Integration

ServiceNow REST APIs
Workflow Automation
Automated Testing (ATF)
Git/GitHub

Data

Pandas NumPy Matplotlib
Seaborn MongoDB NoSQL
Tableau

Mental Health Support Platform

GenAI | Smart India Hackathon 2025

📅 September 2025

- Built an AI-driven support system combining sentiment analysis with personalized interventions
- Applied privacy-preserving ML for student stress detection and wellness tracking

DevRev Code Quality Evaluator

AI/ML | Python, LangChain, RAG

📅 2024

- Engineered an AI code evaluator enforcing DevRev coding standards via GPT-4 and custom prompt engineering
- Surfaced code quality issues and proposed automated fixes at review time

Intelligent Campus Assistant Chatbot

NLP | Smart India Hackathon 2024

📅 2024

- Built a conversational assistant on transformer models for real-time campus query resolution
- Advanced to the national round after clearing institutional selection

CERTIFICATIONS

DELF B1 (French)

Alliance Française | 77.5% (2024)

LANGUAGES

English

French

Hindi

LEADERSHIP & HONORS

Smart India Hackathon

National Finalist (2024, 2025)

MUN Chairperson 2021

Led UNICEF committee on Educational Rights

MUN Delegate 2020

Represented Netherlands on Counter-Terrorism

ADDITIONAL EXPERIENCE

Freelance French Tutor

Independent

2026 – Present

Mumbai / Remote

- Tutoring Grade 10 IB MYP students in French across all four language-acquisition criteria

French Language Instructor

Learn French Enligne

2024

Remote

- Coached students through the TEF, TCF and DELF international certifications

French Trainer & Curriculum Developer

L'Avenir Language Alliance

2021 – 2023

Remote

- Designed and delivered a French curriculum for 50+ students aged 4–14, with supporting digital learning resources
